### **One Response to “The relativity of curve balls: Great optical illusion”**

1. **Andy Weinberger (Yes, I am related)**, on [May 28th, 2009 at 11:31 am](#) Said:

Excellent. As soon as it loaded I “saw” it “curve.” I must have caught it in my peripheral vision. The 2005 winner was from Bucknell Univ. and included one of the creators of this one.
